Velpeau® Genucast 0° Classic **NEW**

Orthosis for immobilisation
of the knee joint.

CLASSIC

Velpeau Genucast 0° Classic is an orthosis for immobilisation of the knee joint in the extended position. Aluminium stays can be individually adjusted to the patient's anatomy to help immobilise the knee joint.

- 0° extension
- anti-slip bands reduce slipping down of the orthosis
- can be worn on the right or left leg

People.Health.Care.

Proven functional principle

- silicone-coated anti-slip bands reduce slipping down of the orthosis
- hook-and-loop straps on opposite sides hold the orthosis firmly in place
- removable aluminium stays at the sides and back can be individually adjusted

Easy handling

- arrives opened for quick and easy handling
- hook straps to ease application
- black colour to avoid visible dirt

High wearing comfort

- skin-friendly materials
- soft padding helps reduce pressure points
- breathable material for appropriate temperature and moisture management

Velpeau® Genucast 0° Classic
