

Velpeau® Ligaction® City Comfort Knee orthosis.

COMFORT

Velpeau Ligaction City Comfort is an adjustable knee orthosis for stabilising the knee and the kneecap.

- The two rigid stays can be removed and reinserted later in the knee orthosis using landmarks. Thanks to a double joint system, they restrain hyperextension and lateral movements of the knee joint.

Mode of action

- system two short straps and two long straps combined with the semicircular ring supports and stabilises the knee in particular around the kneecap
- two rigid stays restrain hyperextension and lateral movements of the knee joint

Easy to adjust

- removable straps in two sizes
- two removable, jointed and flexible stays
- adjustable closure system

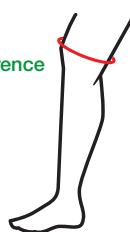

Comfort

- open design for individual adaptability
- removable elastic straps for kneecap temperature control

Velpeau® Ligaction® City Comfort

Knee orthosis
